The image shows a handwritten Persian translation of the English sentence "I watched a movie with my friend". The words are arranged in two columns, with Persian words on the right and English words on the left. Lines connect the English words to their Persian equivalents: "I" to "من", "watched" to "دیدم", "a" to "یک", "movie" to "فیلم", "with" to "با", "my" to "من", and "friend" to "دوست". A red line connects "with" to "دوست" and "a" to "فیلم", which is a less common word order in Persian. The Persian sentence "من یک فیلم با دوست من دیدم" (I saw a movie with my friend) is the more natural translation.
